Chrome Design (Base Line Colour: Light Onyx; Choice of 3 Upper Line Colours)	

¹⁾ For the DA42 with AE 300 engine the TKS system is not yet certified for known icing conditions. Nevertheless we suggest to install the system during the regular production process, as retrofit is disadvantageous compared to the installment as mentioned above.

Depending on country of certification and intended use, different mandatory minimum equipment may apply. Changes of optional equipment placed within 20 weeks before the scheduled delivery date result in additional costs, which will be charged for separately. Actual useful load will vary depending on the selected optional equipment.

Prices are ex factory Wiener Neustadt and excl. VAT. Equipment and prices may change without notice.

Deliveries after January 1st, each year are subject to 3% price escalation. Prices effective: January 1st, 2009

Each member of our Diamond distribution network is a pilot committed to aviation. They're as excited about Diamond airplanes as we are, and they're eager to share their years of aviation experience with you. Locally owned and operated, Diamond distributors know your market and work with you as you research your first or next plane to buy. They don't look at aircraft ownership as one-size-fits-all. They take the time to listen to your goals and concerns, and determine the different missions you'll fly. Because they're able to offer a full line of planes, they can help you to select the best aircraft, or progression of aircraft, that's right for you, and help you trade up when the time comes. Most Diamond distributors also offer their own service facilities, and you can also find maintenance assistance from our network of independent Diamond Authorized Service Centers.

Join the Diamond family.
